NOTES TO FINANCIAL STATEMENTS

December 31, 2017

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Leaders Group, Inc. ("TLG" or the "Company") was incorporated under the laws of the State of Delaware in 1994. The Company is primarily owned by Wickersham Family Investment, LLLP (97.5%). TLG was formed to provide turn-key broker-dealer and back office support for financial services professionals.

In accordance with regulations under the Securities Exchange Act of 1934, TLG is a broker-dealer registered with the Securities and Exchange Commission and is a member of various exchanges and the Financial Industry Regulatory Authority. This is a self-regulating body formed by the industry to protect its members and the investing public.

The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions, agency transactions, investment banking, investment advisory, and venture capital businesses. A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. *Cash and Cash Equivalents*

For purposes of the statements of cash flows, the Company considers all cash and demand deposits to be cash and cash equivalents.

2. *Property and Equipment*

Property and equipment are stated at cost and acquisitions are capitalized if the purchase price exceeds the Company's capitalization threshold of \$5,000, with the exception of computer equipment which is charged directly to expense due to the short-term nature of the related technology, and office cubicles due to specialized design nature. Depreciation and amortization are provided in amounts sufficient to relate the cost of depreciable assets to operations over the estimated useful service lives. As of December 31, 2017, all of the Company's property and equipment is fully depreciated.

Expenditures for major renewals and improvements that extend the useful lives of property and equipment are capitalized. Expenditures for routine maintenance and repairs are charged to expense as incurred.

3. *Security Transactions and Revenue Recognition*

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if the trades had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customer's securities and commodities transactions are reported on a settlement date basis with regulated commission income and expenses reported on a trade date basis.

NOTES TO FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – *continued*

4. *Commissions, Commissions Receivable and Commission Expense*

Commissions and related clearing expenses are recorded on a trade-date basis. As such, the Company records commission revenue and expense on an accrual basis. Commissions receivable in excess of 60 days are written off and any subsequent collections are recognized at the time of receipt. As of December 31, 2017 management considered all commission receivables to be fully collectible.

5. *Advertising*

The Company expenses the cost of advertising and marketing when the advertising takes place or the materials are produced. Advertising and marketing expense for the year ended December 31, 2017 was \$53,242, including general administrative, and other expenses.

6. *Income Taxes*

Income taxes are accounted for using the asset and liabilities method. Deferred tax assets and liabilities, if material, are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax basis, and any operating loss and tax carry forwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income or expense in the period that includes the enactment date.

The Company is no longer subject to tax examinations by federal and various state agencies for the years prior to 2014.

7. *Fair Value of Financial Instruments*

The carrying amounts of the Company's financial instruments, including cash and cash equivalents, commission and representative receivables, clearing deposits receivable, prepaid expenses, accounts payable, commissions payable, income tax payable and accrued liabilities, approximate fair value due to the short-term nature of these instruments.

8. *Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America involves the use of management's estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. These estimates are based upon management's best judgment, after considering past and current events and assumptions about future events. Actual results could differ from those estimates.
